Cheaper Oil For Fuel Standing Up Under U.S. Tests

of local employment agencies oughout the state. These are kept louch with all of the 700 federal neies throughout the station and also a the 1500 community labor hoards this way close watch can be kept urding industrial conditions, and last an incomplete the Bolshevik revo-NOW HOUSING CATTLE cows in trains in Siberia, according to Shinryo Tanaka, a councilise in the Shinryo Tanaka, a councilise in the Japanese railroad board, who has been traveling in Siberia on an investigation of railroads. He said:

"As one travels westward in Siberia train refugees are found in greater numbers. They have converted railway compartments into quite confortable homes which are provided with all the necessary household requisites. Although the rolling stock is by no means plentiful the authorities are not no heartless as to drive away these poor people from their newly occupied absoles and they are allowed to live in the trains. cows in trains in Siberia, according to the trains.

Every station swarms with dirty, ragged beggars. They involve passenger trains and sometimes they follow their intended victims over several stations until their solicitations are satisfied.

MAJ. O. B. ZIMMERMAN.

What may be the solution of the problem of finding a cheaper and more efficient substitute for gasoline has just been announced here by two army engineer officers with the permission of the war department.

They are Maj. Officer B. Zimmerman and Capt. E. C. Weisgerber, of the gas, and oil division, and both men of national reputation in this line. Maj. Zimmerman, before entering the army at the outbreak of the war, was consulting engineer of the International Harvester company. Capt. Weisgerber was a consulting gas, oil and chemical engineer in Figisburgh, who for seven years has been working on this problem.

By way of proof he offers a series of

lem.

By way of proof he offers a series of exhaustive tests conducted under practical conditions with airplanes, motorcycles, automobiles, trucks, etc., all un-

cycles, automobiles, trucks, etc., all under government supervision.

Mal, Zimmerman and Capt. Weisgerber made the following statements, which they say they stand ready to demonstrate, regarding the new fuel called "Liberty fuel," because it has been developed in connection with the Liberty motor:

It can be used by automobilists in place of gasoline without any change in the carbureter and without any detrimental effects on the car.

It can be used (in other grades) for alrplanes and has shown results superior to gasoline.

It can be produced in quantity for less than one-half the cost of gasoline.

It gives more mileage a gallon, greater speed and has less heating effect on the lubricating oil than gasoline.

It has 17 per cent higher fuel econ-

ine.

It has 17 per cent higher fuel economy than export gaseline.

It starts easier than gaseline.

The bureau of standards reports that

ILLINOIS PLANS TO FIGHT CHINCH BUGS

bustion are much cooler than gasoline, so that the amount of oil used for lubrication is reduced as well as the SPRINGFIELD, Ill., Dec. 13 -Twenmount of water used in the radiator ously infested with chinch bugs, are

SPRINGFIELD, Ill., Dec. 13.-The people of Illinois, who spend \$8,000,000 a year on their penal and charitable institutions, are to know how their

Figures on tests conducted include, for example, a 365 mile ride on a motorcycle with side car, first with gasoline and next with Liberty fuel. With gasoline the motorcycle made 32.18 miles a gallon and went 7.64 miles a gallon and went for our same motorcycle went 5a miles a gallon and went of oil. With Liberty fuel the same motorcycle went 5a miles a gallon of 286 miles the tests showed with gasoline 61-3 miles a guart of oil. With liberty fuel the same motorcycle went 5a miles a gallon 61-3 miles a guart of oil. With a three-ton truck over a run of 286 miles the tests showed with gasoline 61-3 miles a guart of oil with liberty fuel the record was 104 miles a gallon of water needed. With Liberty fuel the record was 104 miles a gallon of gasoline, 103.1 miles a nuart of oil and 2 gallons of water needed. In a general way, Capt. Weisgerber fuel that make it an impossibility for fuel for internal, combustion encines. Just what movy is then made or what blending process used is not divuice, but Capt. Weisgerber shates that everything used in making Liberty fuel can account of miles a gailon of water needed. Charles H. Thorne, increasing no regarded campaign to discuss the lilinois counties, serious cherching at Centralia, can betting at Centralia, can betting at Centralia, can betting at Centralia, can be the gasoline data of a counties, with the turn appointed with the street in the struction of the bugs. The state will be able to give accurate information, according to Mr. Thorne, in regard to the operations of the feels in the struction of the bugs. The state will be able to give accurate information, according to Mr. Thorne, in regard to the operations of the feels in the struction of the bugs. Among the most effective means, Mr. Young saide of hubricating oil and 8th gail the birned off the fields in the counties affected, and next spring, when the warm weather quickens the insects into activity, crude oil lines will be put down to serve as harriers against further encoachments into districts not considered

Are Here Told the Best Remedy for Their Troubles.

Freemont, O .- "I was passing through the critical period of life, being forty-six years of age and had all the symptoms incident to that change — heat flashes, nervousness, and was in a general run down condition. so it was hard for me to do my work. Lydia E. Pinkham's Vegetable Compound was recommended to me as nam's vegetable compound was recommended to me as the best remedy for my troubles, which it surely proved to be. I feel better and stronger in every way since taking it, and the annoying symptoms have disap-peared."—Mrs. M. Godden, 925 Napoleon St., Fremont,

North Haven, Conn.—"Lydia E. Pinkham's Vegeta-ble Compound restored my health after everything else had failed when passing through change of life. There is nothing like it to overcome the trying symptoms." -Mrs. Florence Isella, Box 197, North Haven, Conn.
